

Registering for Malvern Residents Permits (Time Wheel)

You can register for a 2 hour residents permit if you pay your Council Tax to Malvern Hills District Council.

Once registered, you can login to this portal using your registered email address and the PIN which is sent to you by email on completion of the registration process.

Purchasing Your Residents Permits

Once registered and logged in, select the 'Buy Virtual Permits' option in the navigation menu, or select the 'Two Hour Residents Permits & Season Tickets' option from the home page and follow the onscreen instructions. You will want to select to purchase the '2 hour time wheel' option in the type of permit option.

Please enter your vehicle registration number and credit or debit card details to complete the purchase.

The first time you register and the purchase is complete, a time wheel will be sent out in the post to your home address. The time wheel will last indefinitely.

Using Your Residents Permits

Your time wheel needs to be displayed in your vehicle when parking using it.

To manage your resident's permits, login to the portal and select 'Manage Virtual Permits' from the navigation menu. You can select your current permit and edit the vehicle registration that the permit is assigned to.

Registering for Malvern Season Tickets

Annual or quarterly season tickets are available to be purchased by residents or business employees who live or work at one of the properties listed below. The ticket holder will then be entitled to park in one of our **long stay car parks** for the duration of their ticket. This will then free up spaces outside of these properties, allowing visitors to park closer to the local shops and result in a faster turn-around of vehicles, improving trade for Malvern, Upton and Tenbury.

Once registered, you can login to this portal using your registered email address and the PIN which is sent to you by email on completion of the registration process.

Purchasing Your Residents Permits

To register, select the 'Buy Virtual Permits' option in the navigation menu, or select the 'Two Hour Residents Permits & Season Tickets' option from the home page and follow the onscreen instructions. You will want to select to purchase the 'season ticket' option in the type of permit option and select which car park to purchase the ticket for.

Please enter your vehicle registration number and credit or debit card details to complete the purchase.

Using Your Season Tickets

Season tickets are virtual tickets, meaning that you do not have to display anything in your windscreen. You simply park in your selected car park and walk away from your vehicle. When the Council Officer sees your vehicle parked they will enter your registration number into their handheld terminal and will be able to see when your ticket expires.

To manage your season ticket, login to the portal and select 'Manage Virtual Permits' from the navigation menu. You can select your current permit and edit the vehicle registration that the permit is assigned to.
